

St. Albans Primary School

2nd November, 2020

Dear Community,

I am writing to inform you that the student who had a family member test positive has tested negative for COVID-19. The student will be in isolation with his family for the next two weeks.

All staff and students that were secondary contacts have been cleared by DHHS to return to school.

On Wednesday it is safe for all students to return to school. The school has been cleaned and tables and other touch points have been wiped down.

There are ongoing safety measures in place including separate play areas, class 'bubbles' and separate lunch and recess times.

Cleaners are onsite during the day cleaning all surfaces including playgrounds to ensure the school is safe.

Thank you for your ongoing support.

I'd like to thank the staff and students for their cooperation on Friday.

Yours sincerely,

JOANNE RICHMOND
PRINCIPAL
